The Republic of India is a South Asian country consisting of 25 states and 7 territories, with the state of Karnataka located in the southwest. Kannada is one of the languages that make up the Dravidian family of native languages of South India and Sri Lanka. Kannada is also known as Kanarese. Kannada is the state language of Karnataka and is among the most popular languages in India. Worldwide, over 40 million people speak Kannada. Kannada language is recognized as the state language of Karnataka and is mainly spoken there and in neighboring states. Yet this language has a long history and millions of people still speak it today. Kannada is the oldest of the Dravidian languages, next to Tamil. The earliest written documents of Kannada's writings come from about 450. Like almost all other Indian writings, Kanada is descended from the Brahmi writing system. Like many languages, Kannada has changed a lot in its long history. While initially independent of Sanskrit and Tamil, Kannada was influenced by both languages over time. It was also influenced by the politics of Karnataka, changes in religion, and the presence of Christian missionaries. The modern version of Kannada, sometimes called New Kannada or Hosagannada, is thought to be only several hundred years old. Kannada has several regional dialects and three caste-based dialects, often separated into Brahmans (people in the highest caste), non-Brahmans, and Harijans (people in the lowest caste). In 2008, the Indian government officially recognized Kannada as a classical language. Legally, this means that Kannada is recognized as being over 1,500 years old, having a rich heritage, and being distinct from any other language. Kannada was the third language (after Tamil and Sanskrit) to earn this distinction in India. This video gives an example of what the Kannada language sounds like: Kannada is almost exclusively mentioned by people who speak it or are familiar with Indian culture. Some movies Kannada budget is so low that, in movies they serve an empty glass that calls it coffee or tea.ðr à Troll Enku (@trollenku) July 5, 2020 Listen to the #kannada while you're out of the karnataka, the feelinggets canâ be express.#fallingshortofwords ÀÈÀÈ varunrayas (@varunrayas) 15 June 2010 Karnataka India Dravidian Sanskrit Tamil Kannada is a language spoken primarily in Karnataka, a state of the country of: A.
